

Colourful Balloon Nameplate

<i>What you'll need:</i>	large piece of felt	glue	thin ribbon or wool
	foam letters of your name (or glitter)	coloured foam	stick just wider than the felt

Instructions *(for patterns see page 2)*

1 Cut out one balloon for each letter of your name. You can use all different colours or only one colour or even a colour for each different letter!

2 Glue one foam letter of your name on each balloon.
OR
Write one letter of your name in glue on each balloon. Pour glitter over the glue and make sure all of the glue is covered!

3 Let the balloons dry.

4 Cut two vertical slits 2 inches from the top left and right edges of the felt.

5 Weave the stick through the slits so that it sticks out evenly at both sides of the felt.

6 Tie a ribbon on each end of the stick. This is to hang up our nameplate!

7 Tie a ribbon on the bottom of each balloon.

8 Glue the balloons on the felt so that they spell your name.

9 Bunch all of the ribbons hanging from balloons together and tie them together with a small piece of ribbon. Make a bow with the little ribbon.

10 After it dries, it is ready to hang in your room or on your door!
