

Egg Carton Caterpillar

What you'll need: 2 google eyes cardboard egg carton paint and paint brush
2 pipecleaners 8cm (3") glue scissors

Instructions

- 1 Cut a long strip of at least four eggcups in a row from a cardboard egg carton.
- 2 Paint the eggcups whatever colour you would like to make the body of your caterpillar.
- 3 Let your caterpillar sit until the paint is dry.
- 4 Poke two holes in the top of the first eggcup. These will be for the antennae.
- 5 Poke a pipecleaner through one of the holes. Bend the end of the pipecleaner inside the eggcup to keep the antenna in place. Repeat for the second pipecleaner antenna.
- 6 Glue the google eyes on the caterpillar's head.
- 7 Let your caterpillar dry and have fun creeping through the grass with your new friend!
